Vorld's Greatest Lead and Zinc N

You never had an opportunity to invest in a mine like The Wellington. It is one opportunity in ten thousand to become independent for life. Its ore bodies contain countless millions. The main ore vein running continously through The Wellington property is now over 4,000 feet long. There are seven true fissure veins already developed, varying in width from 4 1-2 to 20 feet which will supply a 300 ton mill for ages without exhausting the ore bodies. This ore can be mined cheaper than coal. In addition to the immense Lead and Zinc values, Wellington ores carry as high as \$60 per ton in gold.

There is a large development of workable ore, and the management is pushing on legitimate lines for its utilization

I understand, since my personal knowledge of the property, that large additions to the area increase the business outlook Respectfully yours,

Consider the contents of this letter carefully, as it is one of the most important features of this announcement. The Wellington must be a mine of actual proven value, and properly managed, in order to secure the approval of the State Mining Commissioner of Colorado. The information given by the Commissioner can be considered absolutely reliable, as this Bureau was created for the purpose of preventing fraud and misrepresentation, and to assist and encourage legitimate mining in this great State, famous for its great mines. Every mine in the State has been officially inspected by competent inspectors under the supervision of the Mining Commissioner, and a complete report of each and every one is on file in the Commissioner's offices in the Capital at Denver.

How many mines offering stock for sale have the endorsement of the State Mining Commissioner? How many mines can show such a bona-fide list of references as we have furnished in this announcement.
